

GREEK AMERICANS FOR HARRIS-WALZ

WE ARE PROUD MEMBERS OF AN American community with a strong and distinctive cultural heritage of democracy. We believe our collective voice matters to preserve and advance the ideals that strengthen our community and country. This is why we are endorsing Kamala Harris for President of the United States.

In our great nation of immigrants, our families' stories and Greek heritage embody the American Dream. This November, whether America remains a shining city on the hill is on the ballot. The values of *filoxenia* (hospitality), *filotimo* (honor), *eleftheria* (freedom) and *demokratia* (democracy), central to Greek American identity, are reflected in Vice President Harris's life and career, making this election not just about policy but about

preserving the ideals that strengthen our community and country.

We stand with Vice President Harris in her push for strong border security and comprehensive immigration reform that is fair, just, and humane. Her commitment to maintaining a robust NATO ensures global stability and the safety of America, Greece and the world. Her bold climate initiatives will protect our planet, preserving the cultural heritage, natural beauty, and economic stability of America and Greece. Above all, we know that Vice President Harris and Governor Walz are dedicated to defending democracy and its essential virtues – freedom, honesty, decency, compassion, compromise and collaboration – which undergird our national and economic strength and stability.

COMMITTED TO OUR SHARED VALUES OF DEMOCRACY, FREEDOM AND OPPORTUNITY
